PLAYER IN THE GLOBAL
SURGICAL MARKET.

STREAMLINING THE
DISTRIBUTION CHAIN
AND SUPPLYING THE
GLOBAL MARKET WITH
HIGH-QUALITY PRODUCTS
& SERVICES WITHIN
MEDICAL EQUIPMENT AT
A COMPETITIVE PRICE.

ABOUT US

Aprikos Medical is headquartered in Oslo, Norway. Our highly experienced and competent team works every day to ensure that reliable surgery is made accessible through ethical and good manufacturing practices.

WE HAVE A WIDE RANGE OF REUSABLE INSTRUMENTS FOR GENERAL SURGERY, ENT, DENTAL, NEUROSURGERY, AND VETERINARY.

We are committed to reducing surgical complications and post-operative care costs for our partners and their patients, with our compliant and quality medical devices.

MAKING RELIABLE SURGERY ACCESSIBLE FOR EVERYONE

EXPERIENCED TEAM

WE ARE A TALENTED, KNOWLEDGEABLE AND EXPERIENCED ORGANIZATION. OUR ENTIRE TEAM FROM PRODUCT REALIZATION TO PRODUCT MARKETING AND SALES WORKS TIRELESSLY TO ACHIEVE CUSTOMER SUCCESS AND SATISFACTION.

Having 40 years of experience in manufacturing, allows us to have control over the processes that ensure product perfection and further develop our instruments.

ONE TEAM ONE VISION

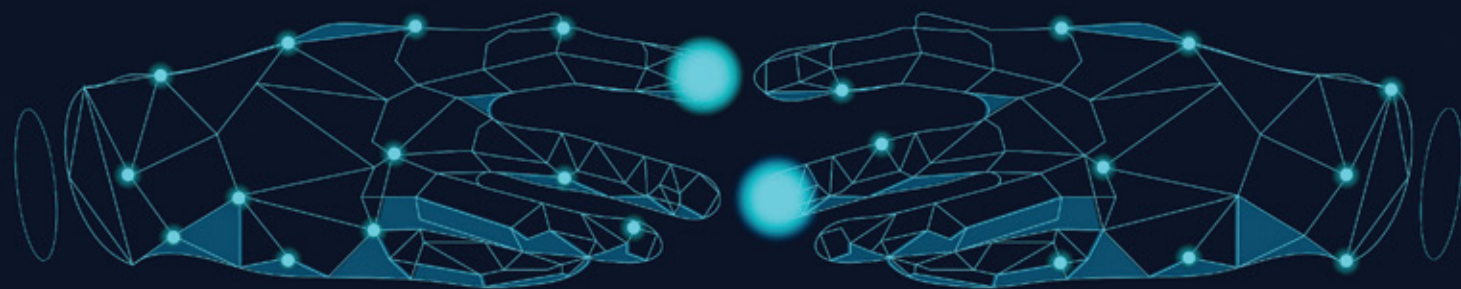

DIGITAL SOLUTIONS

Aprikos Medical believes in innovating, modernizing, and personalizing our customers' experience. We have a highly sophisticated system of identification, labeling, inventory, monitoring, and reporting in place.

THE SYSTEM HAS AN AUTOMATIC COMMUNICATION CHANNEL THAT DRASTICALLY IMPROVES THE WAY INFORMATION PASSES THROUGH ALL THE ESSENTIAL STEPS IN THE ORDER PROCESSING WORKFLOW.

Our digital solutions make it easier to keep track of orders in progress which helps improve picking, sorting, packing accuracy, and contribute to fast feedback and on-time delivery.

CUSTOMER SATISFACTION THROUGH DIGITAL INNOVATION

SHORT DELIVERY TIME

WITH THE ONGOING GLOBAL SUPPLY CHAIN CRISIS DISRUPTING ALL PARTS OF THE VALUE CHAIN, APRIKOS MEDICAL UNDERSTANDS THE VALUE OF RISK MANAGEMENT AND PROVIDING RELIABLE DELIVERY.

We believe in close communication with our customers. Together with our robust digital innovative warehouse management system and its visibility into the minimum stock level ensures quick and timely deliveries to our customers.

Our main priority is to provide high-quality products with short delivery time.

FINEST QUALITY PRODUCTS

Aprikos Medical defines a quality product not only as one that is safe and made of quality components but also as one that is consistent every time. The first and most important quality parameter is whether the product can deliver what it promises safely and repeatedly.

Our instruments are specially designed and handcrafted by experienced and highly professional skilled workers. The instruments go through several quality control processes so we can ensure all necessary quality parameters before leaving our premises.

OUR PROCESSES AND SYSTEMS ALIGN WITH INTERNATIONAL STANDARDS AND REQUIREMENTS, MAKING OUR PRODUCTS COMPLIANT AND ACCREDITED BY NOTIFIED BODIES AND AUTHORITIES.

UNPARALLEL FOCUS ON QUALITY

ETHICAL MANUFACTURING

SOCIAL JUSTICE

Aprikos Medical believes in community efforts dedicated to creating and maintaining a just and equal society where every person and all groups are valued and validated.

It includes efforts to minimize systemic violence, racism and all systems that devalue dignity and humanity.

WE HAVE AN OPEN-DOOR POLICY ACROSS THE ORGANIZATION AND HAVE BUILT A CLOSE-KNIT CULTURE WHERE EVERYONE IS COMFORTABLE ASKING TOUGH QUESTIONS AND MAKING A TEAM EFFORT TO OVERCOME ADVERSITY.

Our social values include gender equality, freedom of speech and belief and inclusion of all groups.

DIGNITY - RESPECT - UNITY

ENVIRONMENTALLY FRIENDLY

One of our main goals is to create a better world for future surgical communities around the world. We continually improve our environmental performance

through more efficient use of resources, utilizing green energy, and reduction of waste and noise pollution.

WHEN IT COMES TO PRODUCTS, IT MEANS EVERYTHING FROM PRODUCTION, PACKAGING AND SHIPPING MUST BE CONSIDERED SAFE FOR THE ENVIRONMENT.

WE AIM AT REDUCING OUR CARBON FOOTPRINT

TEAMWORK

Our team in action during collaborative meetings, where creativity and innovation thrive. Our dedicated members bring fresh ideas, fostering a dynamic environment in the ever-evolving field of surgical instruments.

STRATEGIC PLANNING FOR EXCELLENCE

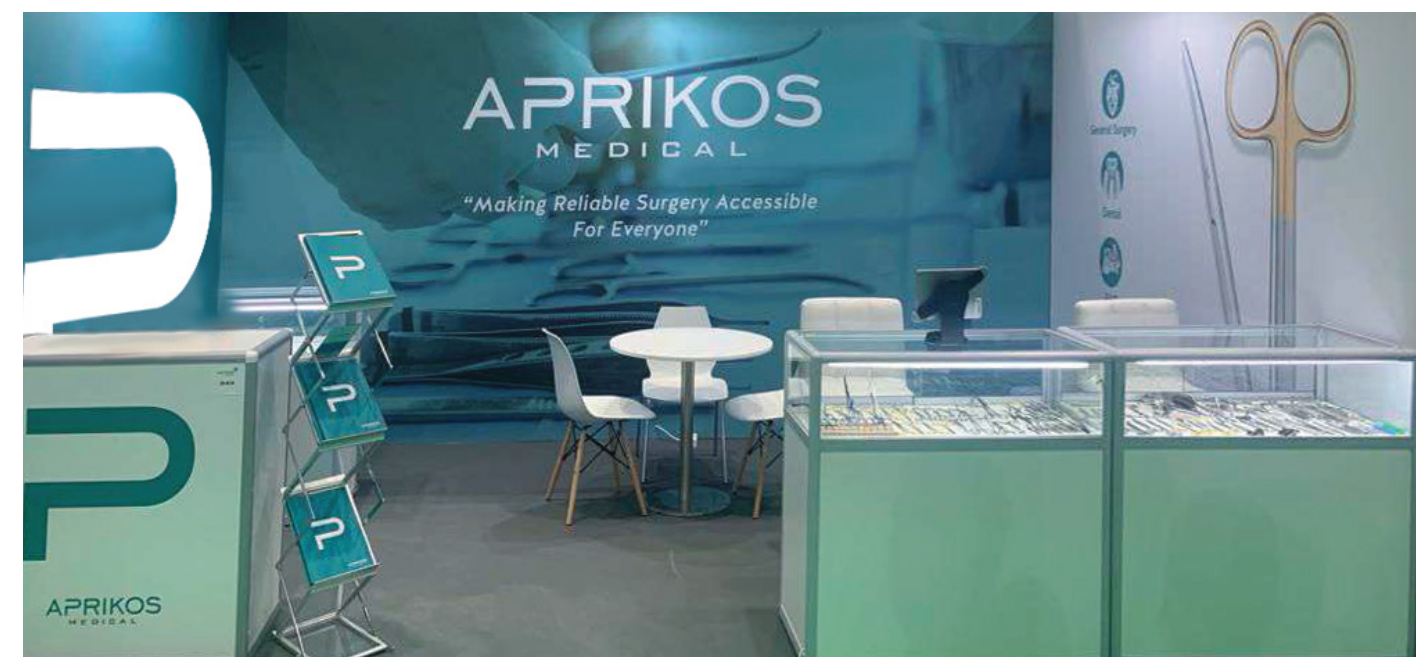

Delve into our production meetings, where meticulous planning ensures the production of top-quality medical devices. Every detail is carefully considered, reflecting our commitment to precision and excellence.

GLOBAL PRESENCE

Aprikos Medical proudly showcases its top-tier surgical instruments at premier global health exhibitions. These venues serve as a gateway to engaging with leading companies, fostering collaborations, and expanding our global network for revolutionary healthcare solutions.

EFFICIENT FACILITY WITH TECHNOLOGY

Aprikos Medical boasts a state-of-the-art warehouse, equipped with cutting-edge technology for storing surgical instruments. Our efficient barcode system, seamlessly integrated with a compliance ERP system, ensures swift dispatch of medical tools.

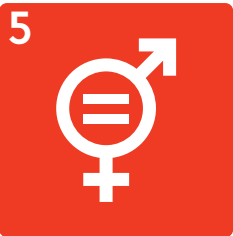

DRIVING SUSTAINABILITY
IN MEDICAL DEVICE
MANUFACTURING

SUSTAINABLE
DEVELOPMENT GOALS

Good Health and Well Being

As a premier surgical instruments company, we support UN Sustainable Development Goal by providing precision tools that elevate surgical procedures, improving healthcare outcomes and fostering global well-being

Gender Equality

We foster an inclusive environment where everyone has equal opportunities regardless of gender within the organization.

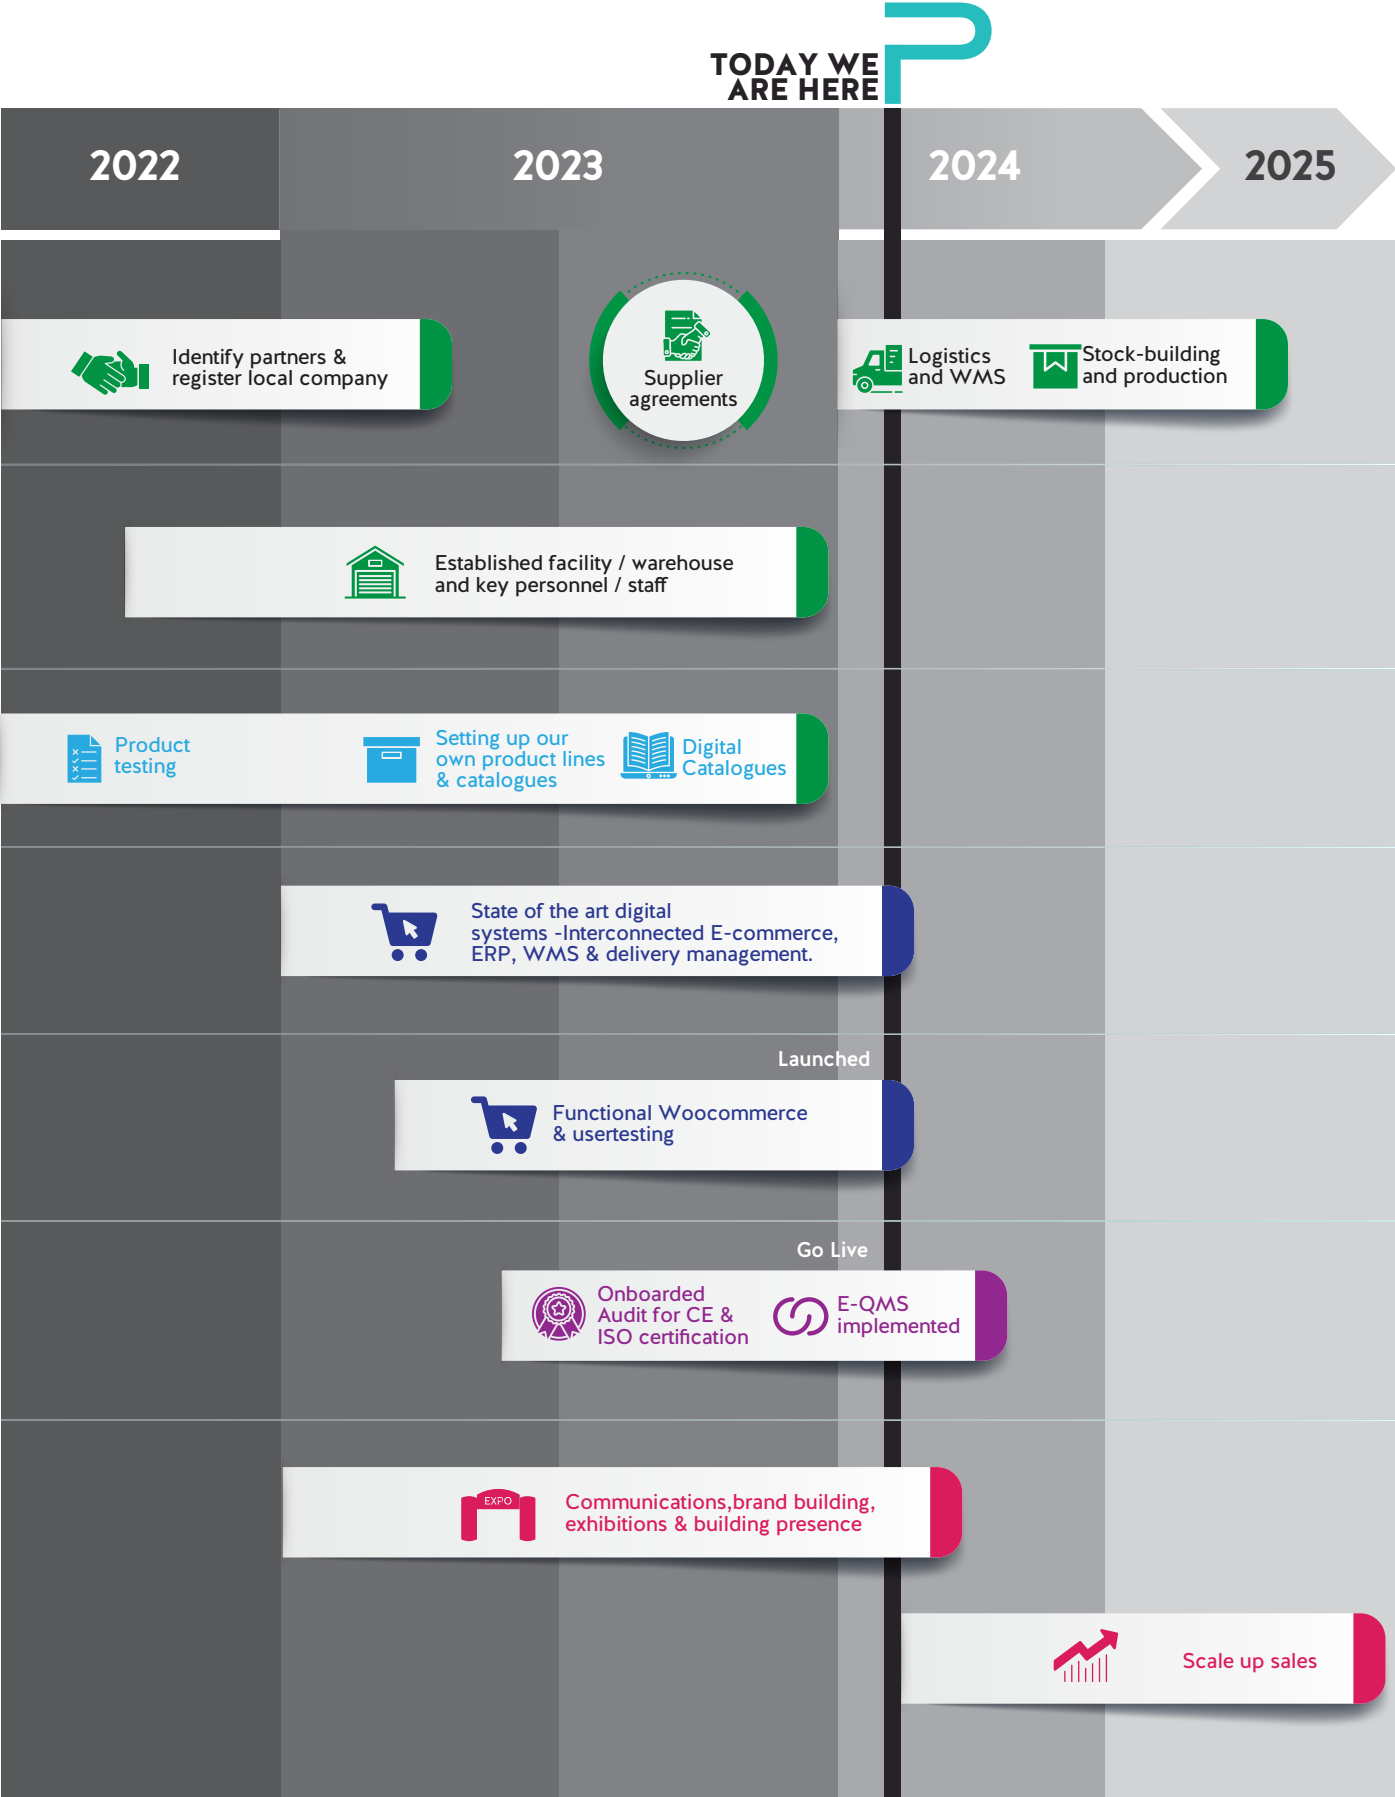

Responsible Consumption and Production

Committed to sustainability, our organization aligns with UN Goal 12 by implementing responsible manufacturing practices for surgical instruments, minimizing environmental impact, and advancing a circular economy in the medical device industry.
